

The only solution to homelessness is housing.

The goal of the WV Coalition to End Homelessness is to end homelessness in our state. We must commit ourselves to efficiently provide housing and services, and to the prioritization and housing of persons most likely to **die on the streets**. We must commit ourselves to tearing down the rules, policies, and prejudices that keep people from successfully accessing housing. We must commit ourselves to ensuring that no child, veteran, or family enters homelessness in the first place. But commitment alone is not enough to end homelessness in West Virginia, and we can't do it without your help. Communities can take the responsibility of ending the homelessness of their neighbors. We can provide the tools to arm communities with strategies to do so. We bind service providers, state agencies, businesses, and concerned people together to work toward solutions to homelessness.

We cannot do this work without support. **We need you.** We need fresh ideas, monetary support, volunteerism, and input from everyone in West Virginia. Only as a community can we end homelessness in West Virginia for good. There is a place at our table for everyone, and we welcome you to the fight against homelessness.

Please consider donating to an organization that is working tirelessly to fight poverty & homelessness throughout our beautiful state.

We as an agency are asking for cash donations that would be used for assistance in regard to:

- Acquiring furniture and gift cards for household items
- Assisting with security deposits,
- Utility deposits,
- Secondary-education fees,
- Legal fees,
- Rent/utility arrears, and
- Unit upkeep
